Preparing for Year-End

We want to stress the importance of reporting all of your 2006 payroll related items prior to January 1st.

You need to notify us of any earning or tax information that is not part of your ordinary payroll, but needs to be reported on your employees' W-2's. This should be done as early as possible prior to December 31st to avoid costly backdating of payrolls after 2006 has been closed. Some of the items to consider are:

1. Employer provided life insurance in excess of \$50,000;
2. Personal use of company provided vehicles;
3. Reportable qualifying employee gifts or awards;
4. Employer contributions to a non-qualified deferred compensation or retirement plan;
5. Employer paid moving expenses;
6. Handchecks, voids or bonuses paid after your last scheduled payroll run for the year;
7. Allocated Tips;
8. Sick or disability pay reported to you by a third party administrator.
9. Any other taxable fringe benefits (Unsubstantiated Cash Payments, Health Club Memberships, Registered Domestic Partner Health Coverage, etc).

Another reason for reporting taxable fringe items with your regularly scheduled payroll is that associated taxes can be withheld from your employee's normal payroll check. If they are reported separately or the affected employee has terminated, the employer will often have to fund both

the employees and employer's shares.

If you are unable to quantify any of these items before December 31st, please call us to let us know when you will have the information necessary to print your W-2's.

Schedule Your Special Year-End Payroll Runs

In order to ensure the highest degree of service, we are requesting our clients to notify us in advance of upcoming special payroll runs (bonuses, taxable fringe, etc.). If you require a special year-end payroll, please give us as much advance notice as possible. Requests for special payroll runs without advance notice may result in additional processing fee premiums. Please complete the attached 'Special Unscheduled Payroll Request' Form and fax it back to IBS at (877) 586-4303.

Keep in mind that any payrolls required to be run after your first payroll of 2007 is processed will almost invariably result in a late deposit of payroll taxes, and will carry a minimum fee of \$300 to re-open a previously closed year.

Alert! Federal Tax Deposit Frequency Notice

Every December, the IRS mails a notice to your company identifying your tax deposit frequency for the coming tax year. Please forward a copy of your notice to IBS.
